PROFILE

A web developer with two years of experience. I love working on product projects that goes deep into development and I like to learn new tools in each new project. Design, develop and implement applications and solutions using a range of technologies and programming languages.

WORK EXPERIENCE

Front-End Engineer

EVEAD GROUP- Casablanca   February 2024 - Present

Develop a platform for ad analytics and monitoring on social media
- Designed responsive dashboards with interactive graphs to monitor ad performance metrics like CTR, impressions, and conversions.
- Implemented real-time data fetching and filtering features for seamless access to campaign insights across multiple platforms.
- Enhanced app performance with lazy loading and conducted thorough testing for functionality, responsiveness, and cross-browser compatibility.

STACK: **Next.js, Tailwind CSS, Typescript, Node.js, MUI, Docker**

Full Stack Web Developer

UX Centers - Rabat   February 2023 – February 2024

Develop an ERP System Web Platform
